Blue Intelligence Climate Summit (BiCS) 2026

Join a Global Platform for Innovation, Research, and Sustainable Development!

The **Blue Intelligence Climate Summit (BiCS) 2026**, scheduled on **25th & 26th October 2026** at **Visakhapatnam**, invites students, researchers, academicians, scientists, industry experts, startups, NGOs, and policymakers from across the world to present and publish their innovative research contributions. Centered around the theme **"Blue Intelligence & Sustainable Ocean Economy,"** the summit provides a unique opportunity to showcase multidisciplinary research that addresses global challenges through science, technology, innovation, and sustainability. Papers from **all engineering branches, sciences, management, healthcare, agriculture, environmental studies, AI, IoT, robotics, social sciences, and interdisciplinary domains** are welcome.

Offline Paper Presentation – Guidelines

Researchers who wish to interact directly with experts and delegates can choose the **Offline Presentation Mode** at **₹2,689 + 18% GST (Total: ₹3,174)**.

- **Early Birds: 31st July 2025.**
- **Late fee 500 INR is applicable from 1st Aug to 20th Sept 2026.**
- **Last Date for registration and submission: 20th Sept 2026**

Accepted authors will be notified via email regarding their presentation schedule, date, and session details. Participants are required to prepare a **15-slide presentation**, with approximately **5 minutes allocated for presentation and discussion**.

This provides an excellent opportunity to receive feedback from domain experts, network with fellow researchers, and enhance the impact of their work through direct engagement.

Recognition, Certification, and Exclusive Benefits

Authors successfully presenting their work at BiCS 2026 will receive a **Hard Copy Certificate of Publication**, an official **BiCS 2026 Participation Certificate**, and **complimentary conference gifts**. In addition, presenters will be provided with **2 high teas + 2 lunches** during the summit. The event offers valuable exposure to international delegates, policymakers, industry leaders, and academic professionals, making it an ideal platform for career advancement, academic collaborations, and future research opportunities.

Why Offline Researchers Should Participate?

BiCS 2026 is more than a conference—it is a global movement toward sustainable innovation and climate resilience. Whether you are a student seeking your first publication, a PhD scholar building your research profile, a faculty member expanding academic impact, or an industry professional sharing practical innovation, BiCS 2026 provides the perfect stage to gain visibility and recognition. Publish your research, present your ideas, connect with global experts, and become part of a transformative initiative dedicated to achieving **SDG 14 – Life Below Water** and creating a sustainable future for generations to come.

Key Highlights

- ✓ International Conference & Publication Platform
- ✓ Multidisciplinary Research Papers Accepted
- ✓ Online & Offline Participation Modes
- ✓ Peer-Reviewed Publication Process
- ✓ Publication Link for Accepted Papers
- ✓ E-Certificate / Hard Copy Certificates
- ✓ BiCS 2026 Participation Certificate
- ✓ Networking with Global Researchers & Industry Leaders

- ✓ Complimentary Gifts & Lunch for Offline Presenters
- ✓ Opportunity to Showcase Research on a Global Stage
